

## Media Adapter Guide Kits

### Media Adapter Guides Kit (for 4" desktop printers)

**Part Number: 105810-003**

**List Price: 25**

The Media Adapter Guide kit for 4" desktop printers is required for narrow media printing such as wristbands. The guides hold the media roll and prevent telescoping, the media pathway clips secure narrow media for precise printing, and the anti-static bezel prevents static build up on synthetic media.

#### Features/Specifications:

- Kit includes: media adapter guides (set), media pathway clips (set), anti-static bezel
  - Printers supported: LP/TLP 2844, TLP 3842, LP/TLP 2844-Z, TLP 3844-Z mfg after July 2003
  - Media pathway clips, for handling 3/4" narrow media, are compatible with LP 2844 and LP 2844-Z printers. They are not compatible with TLP printers
  - Minimum media width: 0.585" (15 mm)
  - Maximum media width: 2.8" (71 mm)
  - Adjustable for core diameters: 1.0" - 3.0" (25.1 - 76.2 mm)
- 

### Media Adapter Guides Kit (for 2" desktop printers)

**Part Number: 105829-001**

**List Price: 25**

The Media Adapter Guide kit for 2" desktop printers optimizes narrow media printing, specifically wristbands. The guides hold the media and prevent telescoping, while guiding the media through the front of the printer. The bezel includes a brush for reducing static on synthetic media.

#### Features/Specifications:

- Kit includes: media adapter guides (set), anti-static bezel
- Printers supported: Direct Thermal Only - LP 2824, LP 2824-Z, H 2824-Z
- Minimum media width: 0.585" (15 mm)
- Maximum media width: 1.44" (37 mm)
- Adjustable for core diameters: 1.0" - 3.0" (25.1 - 76.2 mm)
